

ISO
7388-1

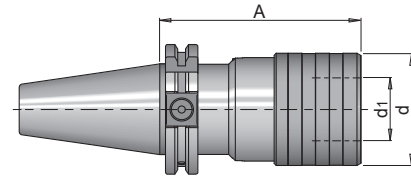

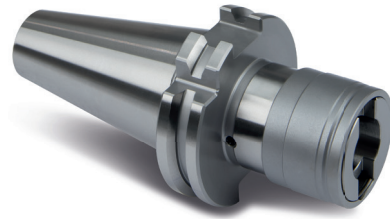

DIN
69871

PRODUCT DESCRIPTION

- » Elastic length compensation on pressure and tension
- » Suitable for right and left-hand threads
- » Adjustable gate pressure
- » Smooth running and length compensation without play thanks to ball guiding bush
- » With Balluf chip hole

APPLICATION

- » For the production of threads true to gauge threads
- » For thread cutting or thread forming using quick change systems (HWZ 9791) on NC machines and machining centres

LAD ¹⁾	LAZ ²⁾	d1	d	Interface	GSB ³⁾	A	No.	#CU#
9	9	19	38	SK 40	M3-M12	60	HWZ 2291/SK40/ 3-12/ 60	XX,YY
15	15	31	55	SK 40	M6-M20	100	HWZ 2291/SK40/ 6-20/100	XX,YY

1) LAD: Length compensation pressure

2) LAZ: Length compensation tension

3) GSB: Thread cutting range

i Not suitable for internal coolant supply
