

PRODUCT DESCRIPTION

Soft cutting compound, particularly suited for very difficult to machine material where standard metalworking fluids are inadequate. Due to its high adhesive strength and high-quality additives, long tool life and high surface quality is reached even under extreme operating conditions.

ADVANTAGES

- » High-quality additives allow for high cutting speeds
- » For high-quality surfaces and high dimensional accuracy
- » Best suited for very difficult to machine material
- » Highly suitable for the machining of non-ferrous metal
- » Chlorine and silicone-free - no hazardous substances

APPLICATION

Hand processing through direct application on the tool

Package	Content	 Pcs. / PU	No.	EUR
Can	120g	1	VKP 100/ 120	< >
Can	750g	1	VKP 100/ 750	< >
